Lebanon, IN 46052**

The following is our response to your comments via email on August 12, 2021.

1. The photometric plan has been revised accordingly.
2. The parking lot perimeter landscaping has been revised accordingly. The required additional 30% landscaping has been added in the reduced buffer. The shrubs have been relocated towards the parking lot for more effective screening.
3. All HVAC/mechanical equipment is located on the roof of the building and is screened by the parapet wall.

Please contact me with any questions or comments you may have regarding the attached submittal.

Sincerely,

Dillon Reynolds, PE
