BY /s/ H. L. Ransdell
Mayor

PETITION NO. 5 *Filed - Petitions*

We, the undersigned, feel there is a definite need for a light to be installed (pole already there), where two alleys meet at the southwest corner lot of Guernsey Milk and Ice Cream Company.

Late at night, on numerous occasions, cars have been parked on this lot and in Metzgers' open garage area. Unknown persons, in cars, throwing bottles against buildings, with broken glass left to litter the area and alley. Residents, or trucks making deliveries, run the chance of ruined tires.

All these disturbances are annoying to we property owners. We feel a lighted area would eliminate this late hour activity. Not only would it be beneficial to the entire neighborhood, but a safety measure. There would be much less danger of mischief being done and take much less time, to check the area, by our cruising police.

PETITION NO. 6 *Filed - Petitions*

We, the undersigned, do hereby petition the City Council of Lebanon to have placed "Stop" signs at all points of the intersection of Meadow Lane and Outer Drive South; Park Street and Outer Drive South; and at Meadow Lane and Woodland Drive.

There is no braking point from Fordice Street, down Outer Drive South, through the High School grounds and out Outer Drive North to Ulen Drive, a distance of over one-half mile. Due to this fact, some individuals carelessly ignore all speed signs and thus endanger the lives of our children.

We feel that "Stop" signs could be more efficiently policed and would, at least, tend to slow down traffic through these areas.

Respectfully submitted:

Signed:
