

pole lines, conductors, transformers, meters and other electrical equipment beyond the point of delivery of electric energy under this schedule, shall be considered the distribution system of Municipality and shall be furnished and maintained by Municipality. Municipality shall install and maintain suitable protective devices on its distribution system in order to afford reasonably adequate protection to Company's lines against trouble originating on Municipality's system and such protective devices shall be in accordance with standard practices relating to such equipment.

4. Company will assume no responsibility of any kind with respect to the construction, maintenance or operation of the distribution system or other property owned or used by Municipality; and Municipality will agree to protect, indemnify and save harmless Company from any and all claims, demands or actions for damages by any person, firm or corporation in any way resulting from, growing out of, or in connection with (a) the construction, maintenance or operation of Municipality's distribution system or other property, or (b) the use of, or contact with, electric energy delivered under this schedule after it is delivered to Municipality and while it is flowing through the facilities of Municipality, is being distributed by Municipality, is being distributed by Municipality, or is being used by consumers served by Municipality.
5. The term "month" as used herein shall mean the period between any two consecutive regular readings by Company of the meter or meters used in determining the kilowatts of Maximum Load and the amount of electric energy supplied Municipality by Company hereunder. Such regular readings shall be taken by Company as nearly as practical every thirty (30) days.
6. Company does not guarantee that the supply of electrical energy furnished under this schedule will be uninterrupted or at all times constant, and temporary cessations of Company's service hereunder, when occasioned by fire, strike, casualty, accident, the necessity for the making of repairs, replacements or changes in the transmission or distribution lines or other facilities of Company, breakdown of or injury to the transmission or distribution lines or other facilities of Company, which is not due to Company's neglect or is occasioned by acts of public authorities, or acts of God, shall not constitute a breach of the obligations of Company under its contract with Municipality, and Company shall not in any such case be liable to Municipality for any damage resulting from such temporary cessations of service.
