We, the undersigned taxpayers of the City of Lebanon, respectfully request that you submit our petition to city council for a street light to be erected at the alley intersection bordering the Southwest corner of the Cedar Hill Park. There is presently a light pole juxtaposed to the Mrs. Eva Fulwider property at 417 N. East Street.

Recent activities which have resulted in property damage and attacks upon law-abiding citizens more than justify the erection of said light. With deepest concerns we here affix our signatures requesting the erection of said street light

We the undersigned and owned property in the south part of Lebanon for 20 years or more do hereby petition the city of Lebanon to legally open the alley between East Street and Meridian Street for the following reasons.

Location: This said alley starts from East Street between houses at 1412 South East Street and 1416 South East Street now plotted to the 1st cross alley to the West. This has been used as an alley for years by the general public all the way to Meridian Street.

A few years back the city saw fit to blacktop the "Alley" from East to Meridian Street. The Lebanon Utilities has installed a Electric Line through the unplotted end and is now in use. Parties abutting this alley has garages in rear of their property use this said alley for access in and out of them. Mail men use it daily.

Now in recent months the area in question has changed owners The new owner has constructed a fence on the North side of the "Alley" which restrict the neighbor from using his garage or access to it.

We feel the council is the only one who can legally take action and strighten out this "Error" for years back.

Please help us out.
