

Until the amount of the Yearly Minimum Bill for the twelve month period following the Customer's election (and each subsequent twelve month period to which such elections applies) shall have been billed in full, Customer shall be billed monthly not less than one-twelfth (1/12) of the total Yearly Minimum Bill. The amount by which such minimum monthly billing exceeds the maximum load and energy charges for the energy used will be accumulated during the twelve month period and will constitute a Reserve Billing Credit for such period. Whenever the total billing hereunder during the such twelve month period exceeds the Yearly Minimum Bill, the ensuing monthly billings during such twelve month period will be computed on the basis of the maximum load and every charges for the energy used, and thereafter during such period any accumulated Reserve Billing Credit will be applied to the maximum load and energy charges for the energy used until the Reserve Billing Credit has been exhausted or until the expiration of the twelve month period, whichever is first, In no case will Reserve Billing Credits accumulated during the twelve month period, hereunder, be applied to bills after the expiration of such twelve month period.

Reserve, Auxiliary, or Breakdown Service

Any Customer (whose premises are regularly supplied with electric energy from a privately owned source of supply) may use Company's service as a reserve, auxiliary, or breakdown source of electric energy supply in connection with his other source of supply, provided Customers pay a Yearly Minimum Bill based on \$18.00 per year per kilowatt of contracted capacity. Customer will be billed for the maximum load and energy charges of the rate (including the applicable adjustments) in this schedule, based on the energy used each month hereunder, subject to the following provisions:

Until the amount of the Yearly Minimum Bill for the contract year shall have been billed in full, Customer shall be billed monthly not less than one-twelfth (1/12) of the total Yearly Minimum Bill. The Amount of which such minimum monthly billing exceeds the maximum load and energy charges for the energy used will be accumulated during the contract year and will constitute a Reserve Billing Credit for such contract year. Whenever the total billing hereunder during such contract year exceeds the Yearly Minimum Bill, the ensuing monthly billings during such contract year will be computed on the basis of the maximum load and energy charges for the energy used, and thereafter during such contract year any accumulated Reserve Billing Credit will be applied to the maximum load and every charges for the energy used until the Reserve Billing Credit has been exhausted or until the expiration of the contract year, whichever is first. In no case will Reserve Billing Credits accumulated during one contract year, hereunder, be applied to bills after the expiration of such contract year.

Terms of Payment - Collection Charge

Bills shall be rendered and due monthly. If paid within fifteen (15) days from the date due thereof as stated in the bill, the net bill shall be the amount to be paid. If not paid within fifteen (15) days from the due date thereof as stated in the bill, the gross bill, which includes the collection charge, shall be the amount to be paid. When the fifteenth day falls on Sunday or any other legal holiday, the first business day thereafter shall be added to the fifteen day period.

the collection charge when due, shall be payable as follows:

On the first \$ 300 or less of Net Billing-	10%
On the next \$300.00 of Net Billing	- 3%

Terms and Conditions for Rendering Service

1. All service metered at a primary voltage, as hereinabove designated, shall be furnished through one meter. All services metered at a secondary voltage, as hereinabove designated, may be furnished through one meter, or through not more than one meter for the lighting service and one meter for the power service, unless it is required by law to install a separate service for exit lighting, in which case an additional meter will be installed for the exit lighting.
