ORDINANCE NO. 73-5

AN ORDINANCE REGULATING THE LEVEL OF NOISE WITHIN THE CITY OF LEBANON, INDIANA AND PROVIDING PENALTIES FOR THE VIOLATION THEROF

minutes Book pg 364

BE IT ORDAINED BY THE COMMON COUNCIL OF THE CITY OF LEBANON, INDIANA that:

ARTICLE I GENERAL PROVISIONS

SECTION I DEFINITIONS As used in this ordinance, unless the context otherwise clearly indicates, the words and phrases used herein are defined as follows:

"A" BAND LEVEL "A" band level shall mean the total sound level of all noise as measured with a sound level meter using the "A" weighting network. The unit is the dbA/  
AMBIENT NOISE Ambient noise shall mean the all-emcompassing noise associated with a given environment, usually being a composite of sound with many sources near and far.  
BAND LEVEL PRESSURE Band pressure level of a sound for a specified frequency band shall mean the sound of pressure level for the sound contrained with the restricted band.

CYCLE Cycle shall mean the complete sequence of values of a periodic quantity which occurs during a period.

DECIBEL Decibel (db) shall mean a unit of level which denotes the ratio between two quantities which are proportional to power; the number of decibels corresponding to the ratio of two amounts of power is ten times the logarithm to the base ten of this ratio.

EMERGENCY WORK Emergency work shall mean work made necessary to restore property to a safe condition following a public calamity or work required to protect persons or property from an imminent exposure to danger.

FREQUENCY Frequency of a function periodic in time shall mean the reciprocal of the primitiev period. The unit is the cycle per unit time and shall be specified.

MICROBAR Microbar shall mean a unit of pressure commonly used in acoustics and is equal to one dyne per square centimeter.

PERIOD Period of a periodic quantity shall mean the smallest increment of time for which the function repeats itself.

PERIODIC QUANTITY Periodic quantity shall mean oscillating quantity, the values of which recur of wqual increment of time.

SOUND ANALYZER Sound analyzer shall mean a devide for measuring the band pressure
