

above is hereby designated as fire zone No. 3.

SECTION 3: This ordinance shall be in full force and effect from and after its passage and publication according to law.

Passed by the Common Council and approved by me this 9th day of January, 1978.

Robert M. Campbell (signed)

Robert M. Campbell, Mayor

ATTEST: Ann Garoffolo (signed)
Ann Garoffolo, Clerk-Treasurer

ORDINANCE NO. 78 -2

AN ORDINANCE TO AMEND CHAPTER 25
OF THE CITY CODE OF LEBANON, INDIANA

BE IT ORDAINED by the Common Council of the City of Lebanon, Indiana, That:

Section I: Chapter 25 of The City Code of Lebanon, Indiana be amended as follows: The following regulations for the connection to and use a public sewers and drains, the installation of building sewers, and the discharge of waters and wastes into the sewerage system of the City of Lebanon, Indiana, providing penalties for violations thereof and other matters pertaining thereto.

Section 1
Definitions

Unless the context specifically indicates otherwise, the meanings of the following terms as used in this ordinance or as used in the rules and regulations adopted by the Board of Trustees to implement the provisions of this ordinance shall be as follows:

101. "Biochemical Oxygen Deman" (or BOD) of sewage, sewage effluent, polluted waters or industrial wastes shall mean the quantity of dissolved oxygen in milligrams per liter required during stabilization of the decomposable organic matter by aerobic biochemical action under standard laboratory procedures for five days at 20° Centigrade. The laboratory determinations shall be made in accordance with procedures set forth in "Standard Methods" (see 123).
102. "Building (or House) Drain" shall mean that part of the lowest horizontal piping of a building drainage system which receives the discharge from soil, waste and other drainage pipes inside the walls of the building and conveys it to a point approximately three feet outside the foundation wall of the building.
103. "Building (or House) Sewer" shall mean the pipe which is connected to the building (or house) drain at a point approximately three feet outside the foundation wall of the building and which conveys the building's discharge from that point to the public sewer or other place of disposal.
104. "Chemical Oxygen Deman" or (COD) of sewage, sewage effluent, polluted waters or industrial wastes is a measure of the oxygen equivalent of that portion of the organic matter in a sample that is susceptible to oxidation by a strong chemical oxidant. The laboratory determination shall be made in accordance with procedures set forth in "Standard Methods".
105. "City" shall mean the City of Lebanon, Indiana, or any duly authorized officials acting in its behalf.
106. "Effluent" shall mean the water, together with any wastes that may be present, flowing out of a drain, sewers, receptacle or outlet.
107. "Garbage" shall mean any solid wastes from the preparation, cooking or dispensing of food and from the handling, storage or sale of produce.
108. "Ground Garbage" shall mean garbage that is shredded to such a degree that all particles will be carried free in suspension under the conditions normally prevailing in public sewers, with no particle being greater than one-half inch in dimension.
109. "Industrial Wastes" shall mean any solid, liquid or gaseous substance or form of energy discharged, permitted to flow or escaping from an industrial, manufacturing, commercial or business process or from the development, recovery or processing of any natural resource carried on by any person as defined in 112, and shall further mean any waste from an industrial user as defined in 125.
110. "Influent" shall mean the water, together with any wastes that may be present, flowing into a drain, sewer, receptacle or outlet.
111. "Outlet" shall mean any outlet, natural or constructed, which is the point of final discharge of sewage or of treatment plant effluent into any water course, pond, ditch, lake or other body of surface or ground water.
112. "Person" shall mean any and all persons, natural or artificial, including any individual, firm, company, municipal or private corporation, association, society, institution, enterprise, governmental agency or other entity.
113. "pH" shall mean the logarithm (to the base 10) of the reciprocal of the hydrogen ion concentration of a solution expressed in gram-atoms per liter of solution.
114. "Receiving Stream" shall mean the watercourse, stream or body of water receiving the waters finally discharged from the sewage treatment plant.
115. "Residential Property Unit" shall mean a building under one roof designed, arranged and used primarily for dwelling purposes by a single family.
116. "Sanitary Sewage" shall mean sewage discharged from the sanitary conveniences of dwellings (including apartment houses and hotels), office buildings, factories or institutions and free from storm water, surface water and industrial wastes.
117. "Sewage" shall mean the water-carried wastes from residences, business buildings, institutions and industrial establishments, singular or in any combination, together with such ground, surface and storm waters as may be present.
118. "Wastewater Treatment Plant" shall mean the arrangement of devices, structures and equipment used for treatment and disposing of sewage and sludge.
119. "Sewage Works" shall mean all facilities for collecting, transporting, pumping, treatment and disposing of sewage and sludge, namely the sewerage system and wastewater treatment plant.
