

of Lebanon, Boone County, Indiana, shall bear the zoning of "PB-2" pursuant to the Master Plan Code of Lebanon, Indiana, of 1974.

SECTION 2: This ordinance shall be in full force and effect from and after its passage by the Common Council and the approval of the Mayor, both of the City of Lebanon, Boone County, Indiana.

Passed by the Common Council and approved by me, this 22nd day of January, 1979.

Robert M. Campbell (signed)
Robert M. Campbell, Mayor

Attest: Ann Garoffolo (signed)
Ann Garoffolo, Clerk-Treasurer

ORDINANCE NO. 79-4

AN ORDINANCE FIXING THE SCHEDULE OF MONTHLY SEWER CHARGES AND SURCHARGES TO BE COLLECTED BY THE CITY OF LEBANON FROM THE OWNERS OF PROPERTY SERVED BY THE SEWAGE WORKS OF SAID CITY, AND OTHER MATTERS CONNECTED THEREWITH

WHEREAS, the City of Lebanon has heretofore authorized the construction of additions and improvements to its sanitary and wastewater treatment plant rehabilitation of its sewer system under the provision of Chapter 5, Article 2, Title 19 of the Indiana Code of 1971 (Chapter 284 of the Acts of the General Assembly of the State of Indiana for the year 1967); and

WHEREAS, the estimated cost of such construction has been determined, and tentative contracts for the construction of said works have been awarded; and

WHEREAS, said statute requires that the sewer charges and surcharges for the use of and the service rendered by such sewage works be fixed by ordinance, finally adopted after due notice and public hearing, and authorizes the collection of said sewer charges and surcharges; now therefore

BE IT ORDAINED BY THE COMMON COUNCIL OF THE CITY OF LEBANON, INDIANA:

Section 1. Definitions

Unless the context specifically indicates otherwise, the meanings of the following terms as used in this ordinance or as used in the rules and regulations adopted by the Utility service Board to implement the provisions of this ordinance shall be as follows:

101. "Biochemical Oxygen Demand" (or BOD) of sewage, sewage effluent, polluted waters or industrial wastes shall mean the quantity of dissolved oxygen in milligrams per liter required during stabilization of the decomposable organic matter by aerobic biochemical action under standard laboratory procedures for five days at 20° Centigrade. The laboratory determinations shall be made in accordance with procedures set forth in "Standard Methods" (see 111).
102. "Chemical Oxygen Demand" (or COD) of sewage, sewage effluent, polluted waters or industrial wastes is a measure of the oxygen equivalent of that portion of the organic matter in a sample that is susceptible to oxidation by a strong chemical oxidant. The laboratory determination shall be made in accordance with procedures set forth in "Standard Methods".
103. "City" shall mean City of Lebanon, Indiana, or any duly authorized officials acting in its behalf.
104. "Industrial Wastes" shall mean any solid, liquid or gaseous substance or form of energy discharged, permitted to flow or escaping from an industrial, manufacturing, commercial or business process or from the development, recovery or processing of any natural resource carried on by any person as defined in 105, and shall further mean any waste from an industrial user as defined in 112.
105. "Person" shall mean any and all persons, natural or artificial, including any individual, firm, company, municipal or private corporation, association, society, institution, enterprise, governmental agency or other entity.
106. "Sanitary Sewage" shall mean sewage discharged from the sanitary conveniences of dwellings (including apartment houses and hotels), office buildings, factories or institutions and free from storm water, surface water and industrial wastes.
107. "Sewage" shall mean the water-carried wastes from residences, business buildings, institutions and industrial establishments, singular or in any combination, together with such ground, surface and storm waters as may be present.
108. "Wastewater Treatment Plant" shall mean the wastewater treatment facilities of the Lebanon Municipal Sewage Works.
109. "Sewage Works" shall mean all facilities for collecting, transporting, pumping, treating and disposing of sewage and sludge.
110. "Sewerage System" shall mean the network of sewers and appurtenances used for collecting, transporting, and pumping sewage to the wastewater treatment plant.
111. "Standard Methods" shall mean the examination and analytical procedures set forth in the most recent edition of "Standard Methods for the Examination of Water and Wastewater", published jointly by the American Public Health Association, the American Water Works Association and the Water Pollution Control Federation and as set forth in the Congressional Record 40CFR136.
112. "User Classes" - Each recipient of municipal wastewater treatment services shall be either in the industrial class or the non-industrial class (including domestic, commercial, institutional and governmental). The Industrial Class shall include any user determined by the Utility Service Board to be discharging waste resulting from
