

308. Written Notice. Within seven (7) days following an accidental discharge; the User shall submit to the Superintendent or Utilities Manager a detailed written report describing the cause of the discharge and the measures to be taken by the User to prevent similar future occurrences. Such notification shall not relieve the user of any expense, loss, damage, or other liability which may be incurred as a result of damage to the BOTW, fish kills, or any other damage to person or property; nor shall such notification relieve the user of any fines, civil penalties, or other liability which may be imposed by this article or other applicable law.
309. Notice to Employees. A notice shall be permanently posted on the User's bulletin board or other prominent place advising employees whom to call in the event of a dangerous discharge. Employers shall insure that all employees who may cause or suffer such a dangerous discharge to occur are advised of the emergency notification procedure.
310. State Requirements. State requirements and limitations on discharges shall apply in any case where they are more stringent than Federal requirements and limitations or those in this ordinance or Ordinance 79-5.
311. Responsibility for Obstructing or Damaging Sewers. If a public sewer becomes obstructed or damaged because any of the aforementioned substances were improperly discharged, the person or persons responsible for such discharge shall be billed and shall pay for the expenses incurred by the Board in cleaning out, repairing, or rebuilding the sewer.
312. Special Agreements. No statement contained in this article shall be construed as prohibiting any special agreement or arrangement between the Board and any person whereby an industrial waste of unusual strength or character may be accepted by the Board for treatment whether with or without pretreatment, provided that such agreement does not violate National Categorical Pretreatment Standards for the specific category of Industrial User, provided that there is no impairment of the functioning of the Sewage Works by reason of the admission of such wastes and provided that no extra costs are incurred by the Board without recompense by the person.
313. All or certain industrial wastes shall be excluded when conditions are such that NPDES permit restrictions cannot be met.
314. Surcharges shall be imposed by the Board for any compatible pollutant discharged in excess of the limits set forth herein.
315. No new connection shall be made unless there is flow capacity available in all down stream sewers, lift stations, force mains, and wastewater treatment plant including capacity for BOD and SS.

SECTION 4. ADMISSIBLE INDUSTRIAL WASTES

401. Prior Approval for Certain Wastes. The admission into the public sewers for any water or wastes having: (a) a five day biochemical oxygen demand greater than 250 parts per million by weight; or (b) containing more than 250 parts per million by weight of suspended solids; or (c) containing any quantity or substances having the characteristics described in Section 301 of this Code; or (d) having an average daily flow greater than 25,000 gallons shall be subject to the review and approval of the Utilities Manager. Where necessary in the opinion of the Utilities Manager, the owner shall provide at his expense, such preliminary treatment as may be necessary to: (a) reduce the biochemical oxygen demand to 250 parts per million and suspended solids to 250 parts per million by weight; (b) reduce the objectionable characteristics or constituents to within maximum limits provided in Section 300 of this Code; (c) provide control of flow equalization of such wastes described in 300 so as to avoid any "slug" loads or excessive loads that may be harmful to the sewage works.
402. Pretreatment Facilities. When, after making such a review, the Superintendent or Utilities Manager concludes that, before the person discharges his wastes into the public sewers, he must modify or eliminate those constituents which would be harmful to the structures, processes, or operations of the Sewage Works or injurious to health, then the person shall either modify his wastes at the point of origin or shall provide and operate
