

- (n) Any other information as may be deemed by the POTW to be necessary to evaluate the permit application.
- (o) Permit application shall be signed by a principal executive officer of the User.

The POTW will evaluate the data furnished by the user and may require additional information. After evaluation and acceptance of the data furnished, the POTW may issue within 30 days of the date of acceptance, a Wastewater Contribution Permit subject to terms and conditions provided herein. Within the 30 day period, the industrial user may review a draft permit and provide comments to the POTW. The POTW may require compliance by industries in the non-major classification which have a potential for discharging toxicants and prohibited substances, by issuance of a general discharge permit.

A general discharge permit may be issued to users which are classified as non-major, informing them of general prohibitive standards, limitations, accidental spill notification requirements, residue disposal requirements, and potential for being sampled by the City and subject to the same requirements of major contributor permits.

502. Permit Modifications. The USB reserves the right to amend any Wastewater Discharge Permit issued hereunder in order to assure compliance by the Utility Board with applicable laws and regulations. Within 9 months of the promulgation of a National Categorical Pretreatment Standard, the Wastewater Contribution Permit of Users subject to such standards shall be revised to require compliance with such standard within the time frame prescribed by such standard. Where a User, subject to a National Categorical Pretreatment Standard, has not previously submitted an application for a Wastewater Contribution Permit as required by 501, the User shall apply for a Wastewater Contribution Permit within 180 days and file 40CFR 403.12 (b) baseline report after the promulgation of the Applicable National Categorical Pretreatment Standard. In addition, the User with an existing Wastewater Contribution Permit shall submit to the Utilities Manager within 180 days after the promulgation of an applicable Federal Categorical Pretreatment Standard the information required by paragraph (h) and (i) of Section 501. All National Categorical Pretreatment Standard adopted after the promulgation of this Ordinance shall be adopted by the Utility Board as part of this Ordinance. The User shall be informed of any proposed changes in his permit at least 30 days prior to the effective date of change. Any changes or new condition in the permit shall include a reasonable time schedule for compliance.
503. Permit Conditions. Wastewater Discharge Permits shall be expressly subject to all provisions of this Ordinance and all other applicable regulations, user charges and fees established by the USB. Permits may contain the following:
- (a) The unit charge or schedule of user charges and fees for the wastewater to be discharged to a community sewer;
 - (b) Limits on the average and maximum wastewater constituents and characteristics;
 - (c) Limits on average and maximum rate and time of discharge or requirements for flow regulations and equalization.
 - (d) Requirements for installation and maintenance of inspection and sampling facilities;
 - (e) Specifications for monitoring programs which may include sampling locations, frequency of sampling, number, types, and standards for tests and reporting schedule;
