

514. Confidential Information. Information and data obtained from reports, questionnaires, permit applications, permits and monitoring programs and from inspections shall be available to the public or other governmental agency without restriction unless the User specifically requests and is able to demonstrate to the satisfaction of the USB that the release of such information would divulge information, processes or methods of production entitled to protection as trade secrets of the User.

When requested by the person furnishing a report, the portions of a report which might disclose trade secrets or secret processes shall not be made available for inspection by the public but shall be made available upon written request to governmental agencies for uses related to this Ordinance, the National Pollutant Discharge Elimination System, (NPDES) Permit, State Disposal System permit and/or the Pretreatment Programs; provided, however, that such portions of a report shall be available for use by the State or any state agency in judicial review or enforcement proceedings involving the person furnishing the report. Wastewater constituents and characteristics will not be recognized as confidential information.

Information accepted by the USB as confidential, shall not be transmitted to any governmental agency or to the general public by the USB until and unless a ten-day notification is given to the User.

515. A person who is a licensed commercial or industrial waste hauler may discharge compatible pollutants to the wastewater treatment plant at a time and place and in such amounts as permitted by the Superintendent. Wastewater so received must have been generated from within Boone County.

Application to the Superintendent and approval must be secured prior to any actual dumping along with payment of dump fees as follows:

- A. Septic Tank (Residential) \$5.00/1000 gallons
- B. Industrial and/or Commercial \$500.00/1000 gallons

A listing of all wastes and source information must be submitted with each application.

516. Industrial Pretreatment Residues. Sludge from an industrial or commercial pretreatment system or liquid wastes and industrial sludges transported by waste haulers shall not be placed into the sewage works. Such sludge and wastes shall be disposed of by a licensed hauler in a site approved by the Indiana State Board of Health in accordance with requirements of Section 402(b) and 405 of the Act and Sections 3001, 3004, and 4004 of the Solid Waste Disposal Act as amended by the Resource Conservation and Recovery Act of 1976 (RCRA, PL 94-580).

SECTION 6. FAILURE TO COMPLY WITH TERMS OF THIS ORDINANCE

601. The USB may suspend the wastewater treatment service and/or a Wastewater Contribution Permit when such suspension is necessary, in the opinion of the USB, in order to stop an actual or threatened discharge which presents or may present an imminent or substantial endangerment to the health or welfare of persons, to the environment, causes, Interference to the POTW or causes violation to any condition of its NPDES Permit.

Any person notified of a suspension of the wastewater treatment service and/or the Wastewater Contribution Permit shall immediately stop or eliminate the contribution. In the event of a failure of the person to comply voluntarily with the suspension order, the USB shall take such steps as deemed necessary including immediate severance of the sewer connection, to prevent or minimize damage to the POTW system or endangerment to any individuals. The USB shall reinstate the Waste-
