

ORD. NO. 85-4 (cont.)

- (7) Yard setback requirements for satellite antenna equipment shall be measured from the closest point of the satellite antenna equipment to the lot line or other structure.
- (8) An improvement location permit shall be required prior to the permanent placement of satellite antenna equipment, regardless of size, pursuant to the provisions of Article 27-81.
- (9) All cables and connections from satellite antenna equipment to other equipment or structures on the premises shall be buried underground when the same is located on the ground or appropriately concealed when satellite antenna equipment is located on a building or structure. All wiring shall be in accordance with the National Electric Code.

Section 4: If any provision of this Ordinance is found by a court of competent jurisdiction to be invalid or unconstitutional, or if the application of this Ordinance is found to be invalid or unconstitutional, such invalidity or unconstitutionality shall not affect the other provisions or applications of this Ordinance which can be given effect without the invalid or unconstitutional provision or application.

Section 5: This Ordinance shall be in full force and effect from and after its passage and any publication which may be required of the same by law.
