

**CITY OF LEBANON, INDIANA
ORDINANCE NO. 95-1**

**AN ORDINANCE TO INCREASE AND ADJUST THE SCHEDULE OF RATES
AND CHARGES TO BE COLLECTED BY THE CITY OF
LEBANON MUNICIPAL ELECTRIC UTILITY.**

WHEREAS, the City of Lebanon, Indiana, owns and operates a Municipal Electric Distribution System, known as the Lebanon Municipal Electric Utility, for the purpose of distributing electrical energy in said City and surrounding areas;

WHEREAS, the existing rates and charges for electric service provided by the Lebanon Municipal Electric Utility were placed into effect following the Public Service Commission of Indiana's approval thereof in Cause No. 37363 on February 22, 1984;

WHEREAS, following a rate study and a review of the financial reports of the Lebanon Municipal Electric Utility for the period ended March 31, 1994, the Utility Service Board of the City of Lebanon, Indiana recommended a revised schedule of rates and charges to the Common Council of the City of Lebanon, Indiana, for approval; and

WHEREAS, such revised schedule of rates and charges include those elements of "reasonable and just rates and charges" under IC 8-1.5-3-8, including a reasonable return on utility plant;

NOW, THEREFORE, BE IT ORDAINED by the Common Council of the City of Lebanon, Indiana, That:

Section 1. Pursuant to Indiana Code § 8-1.5-3-8(f), the Common Council elects to include a reasonable return of 6.75% on utility plant in the rates and charges of the Lebanon Municipal Electric Utility.

Section 2. There shall be and there are hereby established for the use of and the service rendered by the Lebanon Municipal Electric Utility, the following electric rates and charges: (See Attached Rate Schedules)

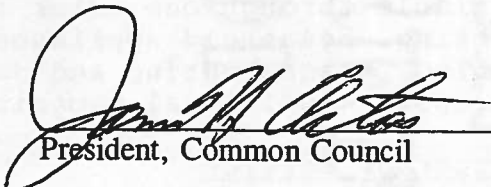

Section 3. When future changes occur in the cost of purchased power, which changes would cause a change in said Purchased Power Cost Adjustment Tracking Factor calculated in accordance with the order of the Indiana Utility Regulatory Commission approved on December 13, 1989 in Cause No. 36835-S3, as may be hereafter amended by the Indiana Utility Regulatory Commission, such factor shall automatically be changed and the Manager of said Municipal Electric Utility shall cause the appropriate documents for approval of such change to be filed with the Indiana Utility Regulatory Commission.

Section 4. All ordinances and parts of ordinances in conflict herewith are hereby repealed; provided, however, that the existing schedule of electric rates and charges shall remain in full force and effect until the schedule of rates and charges fixed by this ordinance shall be approved by the Indiana Utility Regulatory Commission, and until such time as the order of said Commission approving said new rates and charges shall direct.

Section 5. This ordinance shall be in full force and effect from and after its passage; provided, however, that the schedule of rates and charges attached hereto shall not become

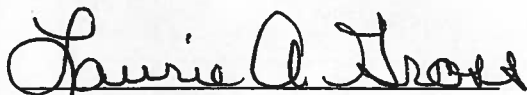

effective unless approved by the Indiana Utility Regulatory Commission, or until such time as said Commission shall direct.

ADOPTED by the Common Council of the City of Lebanon, Indiana this 13th day of February, 1995.

President, Common Council

ATTEST:

Clerk-Treasurer

PRESENTED to me the undersigned Clerk-Treasurer of Lebanon, to the Mayor of said City for approval on the 13th day of February, 1995, at 8:15 o'clock P.M.

Clerk-Treasurer

Having examined the foregoing Ordinance, I do now, as the Mayor of Lebanon, Indiana; approve said Ordinance and return the same to the Clerk-Treasurer of Lebanon, Indiana this 13th day of February, 1995.

Mayor, City of Lebanon, Indiana

Municipal Electric Utility

Lebanon, Indiana

Rate RS - Electric Residential Service

Availability

Available through one meter for residential service, including lighting, household appliances, refrigeration, cooking, water heating, space heating and small motors not exceeding three (3) horsepower individual capacity.

Character of Service

Alternating current, sixty Hertz, single phase at a voltage of approximately 120 volts two-wire, or 120/240 volts three-wire.

Rate*

Customer Charge per month -----	\$5.00
First 300 KWH per month -----	6.36¢ per KWH
Next 700 KWH per month -----	5.77¢ per KWH
Over 1000 KWH per month -----	5.01¢ per KWH

Minimum Charge

The minimum monthly charge shall be the customer charge.

* Subject to the provisions of Appendices A and B.

Municipal Electric Utility

Lebanon, Indiana

Rate CS - Electric Commercial Service

Availability

Available to any customer for light and/or power purposes whose maximum load requirements do not exceed 50 kilowatts. Customer must be located on or adjacent to an electric distribution line of the Utility which is adequate and suitable for supplying the service required.

The availability of this Schedule to polyphase customers is in the process of elimination and is withdrawn except for polyphase customers contracting for service hereunder prior to September 4, 1985, and will not be applicable to any future polyphase customers. If service hereunder is at any time discontinued at the Customer's option, this Schedule shall not again be available.

Character of Service

Alternating current, sixty Hertz, single phase at a voltage of approximately 120/240 volts and polyphase at one of the following voltages: 120/240 volts four-wire Delta, 240 volts three-wire Delta, 480 volts three-wire Delta, 120/208 volts four-wire Wye, or 277/480 volts four-wire Wye, where available.

Rate*

	<u>Single Phase</u>	<u>Polyphase</u>
Customer Charge per month -----	\$6.75	\$15.00
First 500 KWH per month -----	7.31¢ per KWH	7.33¢ per KWH
Next 1000 KWH per month -----	6.22¢ per KWH	6.26¢ per KWH
Next 1000 KWH per month -----	5.34¢ per KWH	5.35¢ per KWH
Over 2500 KWH per month -----	4.96¢ per KWH	4.99¢ per KWH

Minimum Charge

The minimum monthly charge shall be the customer charge.

* Subject to the provisions of Appendices A and B.

Municipal Electric Utility

Lebanon, Indiana

Rate MS - Electric Municipal Service

Availability

Available to any metered municipal customer for light and/or power purposes. Customer must be located on or adjacent to an electric distribution line of the Utility which is adequate and suitable for supplying the service required.

Character of Service

Alternating current, sixty Hertz, single phase at a voltage of approximately 120/240 volts and polyphase at one of the following voltages: 120/240 volts four-wire Delta, 240 volts three-wire Delta, 480 volts three-wire Delta, 120/208 volts four-wire Wye, or 277/480 volts four-wire Wye, where available.

Rate*

Customer Charge per month ----- \$10.00
All KWH used per month ----- 5.34¢ per KWH

Minimum Charge

The minimum monthly charge shall be the customer charge.

* Subject to the provisions of Appendices A and B.

Municipal Electric Utility

Lebanon, Indiana

Rate SGP - Small General Power Service

Availability

Available to any customer for light and/or power purposes.

Character of Service

Alternating current, sixty Hertz, at any standard polyphase voltage supplied by Utility in the locality for which the service is requested.

Rate*

Customer Charge per month -----	\$15.00
First 500 KWH per month -----	9.98¢ per KWH
Next 2000 KWH per month -----	8.57¢ per KWH
Next 2500 KWH per month -----	6.59¢ per KWH
Next 5000 KWH per month -----	5.75¢ per KWH
Over 10,000 KWH per month -----	5.27¢ per KWH

Minimum Charge

The minimum monthly charge shall be the customer charge.

Metering Adjustment

If service is metered at a voltage greater than 480 volts, the energy measurements shall be decreased by one and one-half percent (1½%) to convert such measurements to the equivalent of metering at the Utility's secondary voltage.

* Subject to the provisions of Appendices A and B.

Municipal Electric UtilityLebanon, IndianaRate PPL - Electric Primary Power and Light ServiceAvailability

Available for any customer contracting for a specified capacity of not less than 50 kilovolt-amperes. Applicant must agree to a one-year term of service and must be located adjacent to an electric transmission line of the Utility that is adequate and suitable for supplying the service required.

Character of Service

Alternating current, sixty Hertz, at any standard polyphase voltage supplied by Utility in the locality for which the service is requested.

Rate*Maximum Load Charge (Monthly)

Each KVA of Billing Maximum Load ----- \$10.00 per KVA

Energy Charge (In Addition to the Maximum Load Charge)

First 300 hours' use of Billing Maximum
Load ----- 2.4706¢ per KWH

Over 300 hours' use of Billing Maximum
Load ----- 2.0000¢ per KWH

Measurement of Maximum Load and Energy

Maximum load shall be measured by suitable instruments provided by the Utility and in any month the maximum load expressed in kilovolt-amperes shall be the average number of kilowatts in the 30-minute interval in such month during which the energy metered is greater than in any other such 30-minute interval in such month, divided by the average lagging power factor (expressed as a decimal) calculated for the month. For billing purposes, the billing maximum load, shall be the greater of the maximum load occurring during the month or fifty (50) KVA. Energy shall be measured by suitable integrating instruments provided by the Utility.

Municipal Electric Utility

Lebanon, Indiana

Rate PPL - Electric Primary Power and Light Service
(Continued)

If service is metered at a voltage of approximately 480 volts or lower, the maximum load measurements shall be increased by one percent (1%) and the energy measurements shall be increased by one and one-half percent (1½%) to convert such measurements to the equivalent of metering at the Utility's primary voltage.

Minimum Charge

The minimum monthly charge shall be the maximum load charge.

* Subject to the provisions of Appendices A and B.

Municipal Electric Utility

Lebanon, Indiana

Rate OL - Outdoor Lighting Service

Availability

Available only for continuous year-round service for outdoor lighting to any residential, farm, commercial or industrial customer located adjacent to an electric distribution line of Utility.

Character of Service

Outdoor Lighting Service using lamps available under this schedule.

Rate*

<u>Type of Lamp</u>	<u>Rate per Lamp per Month</u>
175 watt mercury vapor	\$ 4.87
250 watt mercury vapor	\$ 5.92
400 watt mercury vapor	\$ 8.23

When Utility is required to install a pole to provide customer with Outdoor Lighting Service, customer shall be required to pay, in addition to the above charges, \$1.47 per month.

Hours of Lighting

All lamps shall burn approximately one-half hour after sunset until approximately one-half hour before sunrise each day in the year, approximately 4000 hours per annum.

* Subject to the provisions of Appendices A and B.

Municipal Electric Utility

Lebanon, Indiana

Rate SL - Public Street Lighting Service
(Other Than State Highway Lighting Service)

Availability

Available for any standard overhead Public Street Lighting Service.

Character of Service

Public Street Lighting Service using lamps available under this schedule.

Rate*

<u>Type of Lamp</u>	<u>Rate per lamp per Month</u>
100 watt mercury vapor	\$ 4.68
175 watt mercury vapor	\$ 5.09
250 watt mercury vapor	\$ 5.93
100 watt sodium vapor	\$ 4.17
200 watt sodium vapor	\$ 7.23
400 watt sodium vapor	\$12.57

Hours of Lighting

All lamps shall burn approximately one-half hour after sunset until approximately one-half hour before sunrise each day in the year, approximately 4000 hours per annum.

* Subject to the provisions of Appendices A and B.
