BEFORE THE COMMON COUNCIL
OF THE CITY OF LEBANON, INDIANA

IN THE MATTER OF PROJECT LEAP)
PHASE 24 VOLUNTARY)
ANNEXATION)

Docket No. 23-88

**LANDOWNER PETITION FOR VOLUNTARY ANNEXATION
INTO THE CITY OF LEBANON, INDIANA**

By this petition (“Petition”), the Indiana Economic Development Corporation (“Petitioner”) seeks the adoption of an ordinance by the Common Council (“Council”) of the City of Lebanon (“City”) annexing its land (“Territory”) into the City. In support thereof, Petitioner states:

1. The City is a municipal corporation formed under Indiana law whose territorial boundaries are established by ordinances the Council duly enacts from time to time.
2. Indiana law permits the expansion of the City’s boundaries through various means, one of which is a super-voluntary annexation proceeding under IC § 36-4-3-5.1. That proceeding is initiated by the filing of a petition signed by all owners of the land to be annexed expressing their desire and consent to be annexed. This is one such proceeding.
3. Petitioner is the owner of the following parcel(s) of land comprising the Territory proposed for annexation. The following table lists the Petitioner’s name, the number of the parcel(s) as reflected on the map attached as Exhibit B, the tax identification number for the parcel(s), the approximate acreage of the parcel(s) as calculated based upon the land boundaries of each parcel, and, in accordance with Section 1.8(B) of the City’s Unified Development Ordinance, the zoning classification requested for each parcel:

Parcel Letter on Map	Petitioner / Landowner(s)	State Tax Parcel No.	Approx. Acres	Proposed Zoning
H	Indiana Economic Development Corporation	06-10-28-000-002.001-001	6.24	PUD Zoning Classification Set Forth in Ordinance 2023-13

4. Petitioner requests that the Territory be assigned the zoning classification set forth in the Lebanon Innovation District Planned Unit Development Ordinance No. 2023-13 (“PUD”).

5. Petitioner contemporaneously submits as Exhibit C the supporting Concept Plan to support the requested zoning classification to be assigned to the Territory.

6. The exterior boundaries of the Territory form a solid, unbroken line which constitute a single, unified territory for purposes of annexation. *Town of Dyer v. Town of St. John*, 919 N.E.2d 1196, 1201 (Ind. Ct. App. 2010).

7. The Territory proposed to be annexed, including the boundaries thereof with public highways or rights-of-way, is described on Exhibit A attached hereto. The Territory is also depicted by the drawing attached as Exhibit B and incorporated herein by reference.

8. For ease of reference, the annexation to be effectuated by this Petition will sometimes be referred to as the “Project LEAP Phase 24 Annexation.”

9. Petitioner requests and consents to the voluntary annexation of its land in the Territory as evidenced by Petitioner’s executed annexation request and consent attached hereto as Exhibit D and incorporated into this Petition as if set forth verbatim (“Consent”). Such Consent identifies the Petitioner’s parcel constituting the Territory and also acts as, and is designated as, the signature page, to this Petition as required by Ind. Code § 36-4-3-5.1(a)(2)(B).

10. The Territory contains no parcel of land to be annexed against the wishes of its owner(s).

11. Parts of the Territory are contiguous to public roadways and rights of ways. Pursuant to IC § 36-4-3-1.5(b), those portions of such roadways and rights of way are to be annexed into the City in this proceeding.

12. At least one-eighth (1/8th) of the external boundaries of the Territory coincides with the existing boundaries of the City, thereby satisfying the contiguity requirement of IC § 36-4-3-1.5(a). *See* Surveyor's Certification, which is included as a part of Exhibit B.

13. Upon annexation, the Council should assign the Territory into one or more council districts as determined by the Council.

14. The attorney who prepared and submits this Petition is Kent M. Frandsen, PARR RICHEY FRANSDEN PATTERSON KRUSE LLP, 225 West Main Street, P. O. Box 668, Lebanon, Indiana 46052, telephone (765) 482-0110; e-mail kfrandsen@parrlaw.com. The undersigned states the information in this Petition is accurate to the best of his knowledge and belief.

WHEREFORE, upon compliance with the applicable process and satisfaction of the requirements of Indiana law, Petitioner requests that the Council adopt an ordinance (i) annexing the Territory and all contiguous areas of public roadways and rights-of-way into the City, (ii) assign the parcels in the Territory the requested zoning classification indicated on the table referenced in paragraph 3 of this Petition, and (iii) grant all other proper relief.

Respectfully submitted,

PARR RICHEY FRANDBSEN PATTERSON

AMERICAN
STRUCTUREPOINT
INC.

9025 RIVER ROAD, SUITE 200
INDIANAPOLIS, INDIANA 46240
TEL 317.547.5580
FAX 317.543.0270

October 27, 2023

Per request of the Indiana Economic Development Corporation ("IEDC"), American Structurepoint, Inc., has reviewed the information provided by, and available from, the City of Lebanon, Indiana (the "City") and the law firm of Taft, Stettinius and Hollister ("Taft") to determine whether the parcels identified in the attached map, if annexed into the City of Lebanon, would comply with the contiguity requirements set forth in IC§ 36-4-3-1.5(a).

Based upon the information available, reviewed, and provided (which is commonly relied upon in the industry), at least one-eighth (1/8) of the external boundaries of the proposed territory to be annexed ("Territory") coincides with the existing boundaries of the City, thereby satisfying the contiguity requirement of IC§ 36-4-3-1.5(a) to support the voluntary annexation of such parcels into the City.

We are available at your convenience to answer any questions or further discuss this matter.

Sincerely,
American Structurepoint, Inc.

Matthew D. Moore, PE, PMP
Vice President

Exhibit C

Concept Plan Related to the Territory to Be Annexed and the Overall LEAP District

Development and Concept Plan for Project LEAP Annexation Phases 19 – 24

The Indiana Economic Development Corporation (“IEDC”) was officially established in February 2005 to replace the former Indiana Department of Commerce. It represents the state in the identification and promotion of potential economic development sites. In doing so, it also works with local economic development organizations and public officials in securing approvals for developments which will bring better jobs, economic investment, a more diversified and strengthened tax base and many other advantages that come from quality development.

Over the past couple of years, and after discussions with industry leaders, the IEDC identified an area in Boone County as a strategic location for growth and the potential establishment of a large-scale research and innovation park. The area is primarily rural and is located between Indianapolis and Purdue University in West Lafayette and bisected by Interstate 65. If developed, the area will allow the state to better compete globally for high-wage jobs and careers in high-tech industries. This strategic area, currently consisting of approximately 9,000 acres, is identified overall as the “LEAP Lebanon Innovation and Research District” or “Project LEAP Area” with “LEAP” being short for “Limitless Exploration/Advanced Pace.”

To advance this strategic initiative, the IEDC has secured rights to purchase approximately 9,000 acres in Boone County for the Project LEAP Area. IEDC has been, and is in the process of, collaborating with local stakeholders to develop an innovation district to support and attract advanced manufacturing; research and development; life,

biological and agricultural sciences; technology; aerospace; and microelectronics industries (collectively “Innovation Users”).

A depiction of the anticipated development and uses for the overall Concept Plan for the Project LEAP Area is attached as **Exhibit 1** in two pages. Exhibit B to each Annexation Petition in Project LEAP Phases 19 - 24 Annexation Petitions are hereby incorporated into this Concept Plan. Moreover, as discussed below, the City’s recently adopted LEAP PUD Ordinance sets forth the detailed use and development standards for properties part of, and anticipated to be part of, the Project LEAP Area.

Project LEAP – Phase 1 Annexation

As part of the first phase of the Project, on May 31, 2022, thirty-two (32) distinct landowners (“Petitioners”) owning approximately 1,400 acres of land (the “Phase 1 Territory”) under contract with IEDC, submitted to the City of Lebanon (“City”) a formal petition, assigned Docket No. 22-44, requesting the Territory be annexed into the City of Lebanon and assigned a zoning classification of General Industrial (ID).

The Phase 1 Territory was annexed into the City, with an effective date of August 16, 2022, and the Phase 1 Territory was assigned the ID zoning classification.

As a result of Project LEAP’s efforts, approximately 602 acres of land in the Project LEAP Area has been purchased by Eli Lilly and Company (“Lilly”), which has begun developing that property for an active pharmaceutical ingredient (“API”) synthesis plant and a cell and gene therapy research and development facility. The combined capital investment for these facilities (the “Lilly Project Area”) is anticipated to exceed \$3.5 Billion. Work on the Lilly Project Area has already commenced.

Due to the Lilly Project and other IEDC initiatives with respect to the development of the Project LEAP Area, the IEDC has continued to receive significant interest from the exact types of Innovation Users that are being targeted. As development in the Project LEAP Area continues to come to fruition, IEDC anticipates local communities and businesses to expand and flourish as more Innovation Users invest in the Project LEAP Area. Indeed, the IEDC is in discussions with various Innovator Users that may result in combined capital investment of an additional \$50 billion or more in the LEAP Area.

Project LEAP – Phase 2 Annexation Area

On the heels of the early success achieved in Phase 1, on October 31, 2022, forty-three (43) distinct landowners owning approximately 5,225 acres of land (the “Phase 2 Territory”) under contract with IEDC, submitted to the City a formal petition, assigned Docket No. 22-72, requesting the Phase 2 Territory (like the Phase 1 Territory) be annexed into Lebanon.

The Phase 2 Territory was annexed into the City, with an effective date of July 17, 2023. Portions of the Phase 2 Territory were initially assigned the SF zoning classification and portions of the Phase 2 Territory were initially assigned the LP zoning classification.

The City Amended its Comprehensive Plan to Encompass the Project LEAP Area

On July 24, 2023, the Common Council of the City of Lebanon, Indiana (“the Council”) adopted Resolution 2023-15. Resolution 2023-15 amended the City’s 2019 Comprehensive Plan to reflect the City’s renewed vision for the City and its surrounding areas, including the entire Project LEAP Area.

The Enactment of a Planned Unit Development Ordinance for the Project LEAP Area

Given the large amount of land annexed into the City of Lebanon pursuant to the Phase 1 and 2 Annexations, in order to better facilitate and coordinate the development of the property in the Project LEAP Area, the IEDC and other landowners submitted an application seeking the adoption of the LEAP Lebanon Innovation Planned Unit Development (“PUD”) District Ordinance (“PUD Ordinance”) for all the Territory in the Phase 1 and 2 Annexation Areas, except for the area being developed by Lilly, where construction has commenced under the Lilly site’s present ID zoning classification.

On August 14, 2023, the City Council adopted the LEAP PUD Ordinance, which codifies a new PUD Ordinance for portions of the City. The PUD Ordinance, among other things, rezoned the Phase 1 and 2 Annexation Territories (except the Lilly Project Area) in accordance with the PUD mandates, and the PUD Ordinance sets forth and imposes very detailed development standards.

Project LEAP – Phase 3, 4, and 6 - 18 Annexation Areas

On August 25, 2023, twenty-two (22) distinct landowners owning approximately 638 acres of land (the “Phase 3 *et al* Territory”) owned by, or under contract with, IEDC, submitted to the City a formal petition requesting the Phase 3 *et al* Territory (like the Phase 1 and 2 Territories) be annexed into the City.

The City Council approved the annexation of the Phase 3 *et al* Territory, and its effective date is anticipated to be on or before November 17, 2023 – at which time the thirty-day period for seeking judicial review of the annexation ordinances associated with the Phase 3 *et al* Territory will have expired and the City will have sent the required notices to state and local agencies. The Phase 3 *et al* Territory was assigned the zoning

classification set forth in the LEAP PUD Ordinance, with the exception of one parcel that was assigned SF zoning.

Project LEAP Phase 19 - 24 Annexation Areas and Requested Inclusion in the PUD

This current and updated Development Proposal/Concept Plan information is being submitted for review by City officials in considering the annexation and assignment of appropriate zoning classifications for the Phase 19 - 24 Annexation Areas. They are identified and referenced in the contemporaneously submitted Voluntary Petitions for those areas to be annexed into the City.

As the maps for the Phase 19 - 24 Annexation Areas indicate, each such annexation area is within the Project LEAP Area, is contiguous to or located near parcels already subject to the PUD Ordinance and is specifically encompassed within the City's existing Comprehensive Plan. They were not part of the Phase 1, Phase 2, or Phase 3 *et al*/Territory annexation proceedings for various reasons. For example, those parcels were not then under IEDC ownership or control, or they did not then satisfy the contiguity requirements for annexation.

Consequently, in order to avoid a patchwork of zoning classifications in the Project LEAP area, to better facilitate and coordinate the consistent development of its property, and require these to-be-annexed areas to be subject to the very detailed development standards in the PUD Ordinance, the Petitioners of the Phase 19 - 24 Annexation Areas respectfully request that the Phase 19 - 24 Annexation Areas now be annexed and assigned the zoning classification set forth in the LEAP PUD Ordinance LEAP PUD.

Next Steps/Questions

The IEDC intends to work efficiently, collaboratively and in good faith with City and county officials and other stakeholders to effectuate all annexation, zoning and related approvals to support the above-referenced planned development and use of the Phase 19 - 24 Areas.

Toward that end, the IEDC has designated Kurt Fullbeck, the IEDC's Executive Vice President, as its authorized representative to answer any questions and provide any additional information concerning this annexation proceeding.

Respectfully submitted,

PARR RICHEY FRANSEN PATTERSON

EXHIBIT 1

LEAP District Concept Plan and Road Classification Plan

LEAP DISTRICT CONCEPT PLAN

For clarification, the Concept Plan coverage area depicts some parcels that are not currently controlled, or may not come under control, by the Developer.

The Concept Plan does not assume that such parcels will be incorporated into the LEAP District, but the Concept Plan does, as required, depict the general area and general vision for the LEAP District, given that the Developer controls the vast majority of that land.
